Sardines on our Shores - A Fish Frenzy!

It's an extraordinary time to visit the East Coast as due to slightly colder waters, an exceptional sardine run is expected this year! Visible by satellite, the sardine run is a unique feat of nature.

The largest sardine shoals on earth migrate up the East Coast of South Africa, in incredible numbers, between May and July. The sheer numbers create a feeding frenzy among schools of dolphins, sharks, whales, game fish and birds. The shoals can be more than 7km long, 1.5km wide and 30 meters deep.

Take in this phenomenon! There's no better time to book our 5 night weekend. Extend your stay on us and linger longer.

Stay for 5 nights and only pay for 3! R2650 per room, per night (bed and breakfast). Lilian and Kamantha are waiting to assist you. Call 031 561 2211.
